10 Reasons to CHOOSE WOOL

- 1** **Pure** wool is 100% natural, 100% renewable, 100% sustainable, 100% biodegradable, if you love the planet - use more wool!
- 2** It is **warm** but it is **cool** too because it adapts to the wearer - that's why sheep are so snug and content!
- 3** Wool is **flame retardant** and will often self-extinguish. Fire-fighters like it because it produces less smoke and toxic fumes - making it a safer choice for the home.
- 4** **Strong and long lasting** - wool carpets and rugs can take lots of heavy wear and are known to look better for longer - quality always lasts!
- 5** **Sleep well** with a wool bed, pillow, duvet and blanket - scientific tests show that wool will create a sleep climate perfect for you... deeper sleep, lasting comfort and sweet dreams.
- 6** Wool has **hypoallergenic and anti-bacterial** properties - it makes the air that we breathe cleaner and better.
- 7** Wrap your babies in wool so they **breathe easy...** wool will keep them cosy and warm but not too hot as it cleverly changes to their temperature needs and is good for their skin.
- 8** **Insulate** with it, soundproof with it, wear it, walk on it, wrap things with it. The world's oldest renewable fibre is also the most versatile and modern.
- 9** **Sheep are amazing** - they graze peacefully, grow wonderful wool, we use it to make beautiful textiles and the whole process begins again... no depletion, just sustainable and sensible.
- 10** **Wool is smarter** than any other fibre - it travels a long way on its journey from the sheep to finished product but it never loses any of its remarkable qualities and it looks and feels fabulous too.
